For Hamakus, per stmr Iwalani, Mar 26 C Notley, Jr. Dr A Stowe, Mr Parker and 10 deck passengers.

SHIPPING NOTES.

The steamship Zealandia carried the following cargo for San Francisco, March 23: 35,088 bags sugar, weighing 4,251,036 pounds, 2,748 bunches bananas and 23 boxes fruits. The cargo was valued at \$198,580.35. She will get in San Francisco about the 30th inst, the same day as the Sussex is intended to arrive there. The Hounslow and Eton will reach San Francisco a day or two ahead of her. The shippers were: H. A. Widemann, 2,840 bags sugar: W. G. Irwin & Co., 16,110 bags sugar: M. S. Grinbaum & Co., 3,198 bags sugar; Castle & Cooke, 10,357 bags sugar; G. Lycurgus, 268 bunches bananas; Campbell, Marshall & Co., 2.498 bags sugar. Sundries: 1,855 bags sugar, 12 bchs. bananas, 15 cases effects and 23 boxes fruits.

Several of the wives of whaling captains who have already gone north returned to their homes by the steamship Zealandia on

Captains R. Dabel, M. Staples and W. Matson left on Monday for San Francisco by the steamship Zealandia.

The whaling bark Horatio was flying ber flag at half mast March 23d, out of respect to the memory of the late Captain D. B.

22, in ballast for Eureka. The whaling bark Horatio was docked at

the Kinau whari March 24th to land her The whaling schooner Alton arrived

March 24th from San Francisco. The schooner Mary E. Foster will leave for Laysen Island about April 1st, next. She will take railroad materials, and will come back with a cargo of guano. H. H. Berry will command the Mary E.

Foster on this expedition. The bark C. O. Whitmore sailed Wednesday evening, March 25, for Hilo, Ha-

The new bark Albert went on the Marine Railway on Thursday morning. Several skippers went over to look at her bottom. Nothing but praise of her excellent finish and superior model fell from their lips. The tern John G. North left March 26th for Mahukena.

The barkentine W. H. Dimond, E. P. Drew, commander, arrived at 4 p. m. March 26th, 16 days from San Francisco with 700 tons miscellaneous merchandise She also brought 25 males and 20 horses fo H. Nathan. They are a splendid lot of animals. Dr. O. Brock, V. S., who came down by her as passenger, took pleasure caring them during the voyage. None of the animals died and not a single one sick. The W. H. Dimond had splendid weather all the way to port.

The American bark C. D. Bryant, Cap tain J. H. Jacobsen, arrived on Thursday, March 26th, 16% days from San Francisco, with nearly 1,700 tons general merchand-ise, and a deck load of 500 pigs for E. C. Winston, 2 horses for Mr. Gonsalves and 3 horses for J. O'Connor. The Ewa Plantation received two heavy 5-ton pumps by her. Atter leaving San Francisco and for the first week, S. W. and W. winds set in, taking her as far as 118 deg.W. and 26 deg. N. Thence, took the northeast trades, lasting to port. The run from there to port was accomplished in ten days, and the entire distance traveled by the C.D. Bryant since leaving San Francisco was 2,854 miles. From 118 deg. W. to Honolulu, fine weather and very smooth seas, the like of which Captain Jacobsen never be fore experienced, were had, The C. D. Bryant is docked at Brewer's wharf,

The barkentine W. H. Dimond went to San Francisco on her last trip in 12 days making the round trip in 32 days, which will stand as the quickest on record until some swifter vessel will lower it. Captain E. P. Drew is justly proud of this remarkable performance.

The steamer W. G. Hall, Captain Freeman, arrived on Friday afternoon from Mani and Hawaii with 28 hides, 51 bags coffee, 267 bags awa and 5,677 bags sugar. The British bark Velocity, Captain R. Martin, arrived on Friday morning, March 27th, 59 days from Hongkong with 700 tons Chinese merchandise, consigned to Mee Fong Co. She brought 21 Chinese passengers, 4 of them being women. Captain Martin reported having encountered heavy ortheast gales in the China Sea during the first 25 days; thence to port, had fair weather. Messrs. See Wo Hing Co. re-ceived by her about twenty-five different varieties of most beautiful and rare flowers from the "Flowery Kingdom." The room Union S S Monowai Colonies......Apl 9 from the "Flowery Kingdom." The room | Miss bkt Morning Star Jaluit..... June 21 in which these sweet flowers were kept was

PASSENGERS.

highly scented with most delicious odors. The Velocity will discharge her cargo at Brewer's whari. She will leave again within a fortnight for Hongkong. The schooner G. W. Watson arrived March 27th with a cargo of coal from Newcastle, N. S. W., for the Oceanic Steamship Company. She is at anchor in

The schooner Haleakala arrived March 27th from Kona. Hawali, with 35 cords ohia firewood and 15 walu awa.

The steamer C. R. Bishop will go on the Marine Railway this week.

March 28 being Good Friday, the Ger-man barks J. C. Pfluger and Santiago were flying their flags at half-mast in honor of the day.

The steamer Claudine's cargo from Mani on Sunday is as follows: 5,155 sacks sugar, 226 sacks potatoes, 40 sacks rice, 30 sacks corp. 156 hides, 18 hogs, 2 horses, and 150 packages sundries. The steamer James Makee arrived on

Saturday from Kapaa with 2,356 bags sugar for the bark Santiago. The steamer Waialesie brought 1,440 bags sugar and 30 bags rice on Saturday from various ports on Kauai.

The parkentine Klikitat and schooner Robert Lewers were docked at Brewer's wharf on Saturday morning where they will discharge their lumber.

The bark Albert came off the Marine Railway on Saturday. The schooner Mary E. Foster went on for a general overhanling and was lowered in the afternoon, the steamer C. R. Bishop is also going up for repairs.

The steamer W. G. Hall's wharf is undergoing extensive repairs at the hands of carpenters. The Hall, in consequence of this, is loading at the adjoining wharf. The whaler Wm. Lewis departed for the Arctic Ocean on Saturday morning,

The steamer Mikahala brought on Sunday 3,114 bags sugar, 4 head cattle, 20 hides, and 2 horses. Her sugar goes on the Santiago to-day.

MEMORANDUM OF THE ROBERT LEWERS. The American four-masted schooner Robert Lewers, Captain De B. P. Penhallow, arrived on the afternoon of Good Fri-day, March 27th, having made the run to this port from Port Gamble, Washington, in 23 days, a splendid passage. She is anchored in the stream, and brings about 902 M teet lumber, 5 M pickets, 200 M shingles and 3 M laths, all consigned to Messrs, Lewers and Cooke. Captain Penhallow will please accept our thanks for kindly sending in the following inter-esting report of his voyage: March 3d, 8 a. m., towed from Port Gamble to Dun-geness Spit. Light air from N. E. Be-calmed all night off Port Angelos. March 4, at noon, arrived off Nesh Bay. During the night light rain and passing cloudy weather, the barometer registering at 29.92 legrees. From March 6th to 10th, the barometer rose to 30 degrees, but reduced again to 29.40 degrees on the following day. March 12th, the vessel's course being S. E. % E., the distance traveled on that day was only 50 knots, the wind blowing from S. S. W.; the barometer gradually grose; heavy squalls and seas from the south. From March 13th to 26th, some good daily uns were made, squally weather prevailing March 27th, tresh trades and light cloudy weather. At 2 a. m. sighted the east end of Molokai and at 10 a. m. passed the west end. At 1:15 p. m. passed Coco Head. Took pilot at 2:30 p. m., and came to anchor in Honelulu harbor at 3:15 p. m.

BORN.

In Honolulu, March 28th, to the wife o Chas. D. Miller, a son.

MARRIED.

Mrs. A. E. Broad, of Honolulu.

DIED.

WILLIAMS-In this city, March 23d, at his residence, Queen street, of aneurism of the heart, Jas. Williams, a native of U. S. A., aged 45 years.

A Curious Calculation.

A rapid penman can write thirty words in a minute. To do this he must draw his quill through the space of a rod-16 ft. In forty minutes his pen travels a furlong; and in five hours and a third a The tern Allen A. left on Sunday, March | mile. We make, on an average, sixteen curves of the pen in writing each word. Writing thirty words a minute. we must make 488 to each second; in an hour 28,800; in a day of only five hours, 144,-000; and in a year of 300 days, 43,200,000. The man who made 1,000,000 strokes with a pen in a month was not at all remarkable. Many men make 4,000,000. Here we have in the aggregate a mark, 300 miles long, to be traced on paper by each writer in a year. In making each letter of the ordinary alphabet, we must make from three to seven strokes of the penon an average, three and one-half to four.

A Wonderful Mountain.

Almost in the exact geographical centre of Wyoming is a mountain of solid hematite iron, with 600 feet of it above ground, more than a mile wide, and over two miles in length. Besides the iron, the mountain contains a bed of lignite coal large enough to warm the entire world for a century, a dozen driedup lakes of soda, where the soda is
deposited to a depth of over 300
feet, some of the lakes being over
600 acres in extent. In a mountain
adjoining there is a petroleum basin
larger than those of Pennsylvania

and all persons indebted to said estate are hereby requested to m larger than those of Pennsylvania and West Virginia combined. Out of some of the springs pure rectified coal oil is trickling at the rate of twenty to thirty barrels per day. A wonderful country, indeed.

Two Hundred Millions.

Houston, Texas, March 3d .-Several heirs to the estate of Robert Edwards of New York city have been discovered in Houston, San Augustine and Tyler. It is said that in the early days of the colony Edwards, a sailor, invested his savings in the 34-acre tract of land in New York city now occupied by Trinity Church and part of Wall street. The property is valued at \$262,000,000. Several attempts have been made to establish ownership by the Edwards heirs, but without avail. With the aid of the newly discovered heirs another effort will be made to secure control of the property.

ABOUT WINDMILLS!

The utility of Windmills on these Islands has never been clearly illustrated for the reason that until the introduction of the Aermotor by the HAWAIIAN HARDWARE COMPANY there was not a mill that would meet the requirements of the purchaser or that could be made to run in localities where the wind is, at time . so light that it is impossible to make the old style wooden wheel turn around. The Aermotor is constructed of steel so light, yet strong, that it moves with the slightest wind nor is it affected in any manner in the severest gale. It is an absolute fact that the ordinary wooden mill will remain motionless on account of scarety of wind while at the same time the Aermotor will be pumping water.

During a recent visit to Manualoa Ranch the wind was so light that it was not believed that any mill could run, a half dozen ordinary mills were motionless but the Aermotor was pumping water enough to supply the requirements of several hundred heads of stock. This is the usual state of affairs and is evidence enough to convince the most skeptical that the Aermotor is the greatest windmill on earth. An eight foot geared Aermotor will pump water, saw wood, turn the grindstone and grind the feed for the stock at the same time. It will, by its labor saving qualities, add twenty years of solid comfort to its owner's life, it will add to his bank account and do every thing but drive the bens to water or make them drink.

We now have these mills on each of the group and in every case they have proven a perfect success, in every instance they have done more than was expected and have consequently, given the greatest satisfaction. We believe the sale of the Aermotor on these Islands will be enormous and that they will ultimately take the place of every other make.

It is said that the other mills do not require puffing to sell them but we observe that it takes a great many strong puffs of wind to make them go after they are sold. An occasional testimonial does no harm and we think they do some good, they show the state of the public pulse so far as windmills are concerned. The following are culled from a thousand, not merely for what they express, for there are others louder in their praises but for the character of the people who farnish them.

Messrs Hawaiian Hardware, Co., Honolulu. GENTLEMEN:-I have had the 8 foot Aermotor placed in position on Maunaloa Ranch and desire to express to you the genuine satisfaction I feel at the work it has done. It runs smoothly and revolves in the slightest wind. One strong point in its favor, in addition to its doing all you promised it would do, is its absolute freedom from noise, a fault so common with every other mill I have ever seen.

GEORGE J. CAMPBELL, Manager.

The 12 foot geared Aermotor has bee, running my four-horse grinder, two-hole Mortgagee's Notice of Fore. self-feed corn-sheller, feed cutter, etc. It produces more power than you claim for it, and I cheerfully recommend it to parties wanting a gear mill. C. W. PHENIX.

Bradford, Ill.

I have had one of your 12 foot geared Aermotors in use for six months and it fulfills your recommendations in every respect. In a moderate wind it will furnish more power than four horses on a sweep power. It regulates perfectly. Gusts do not affect it. It does my feed cutting, grinding, and pumping to my entire satisfaction.

H. D. HUGHES.

Antioch, Ill. I like the tower and Aermotor first rate and would not give it for any other that I know. I have one wooden wheel, theand I think it the best wooden mill there is but I would not give your wheel for a dozenof the wooden ones. The Aermotor runs when wooden wheels will not, and regulatesbetter than any of them and does not jerk

> J. R. KNOX. Page Center, Ia.

My 8 foot Aermotor, which furnishes water for 200 head of stock, will pump in a wind that will not move other 10 to 14 foot

the pump.

It cannot be compared with others in light winds, while in strong winds it regulates itself much better and quick than others; but one of its finest points to my mind is that it does not jar the pump at all.

Galt, Ill.

ISAAC SHULTZ.

I built the tower myself, although I am no carpenter. The directions were so plain one could not make a mistake. All the mills owned by my neighbors have 12 toot wheels. Mine is 8 foot but it will pump with less wind than any one of them. It does not have to run more than two hours a day topump water for 90 head of stock. THOMAS G. STEVENSON.

Reardon, Wash. We use our 8 foot Aermotor for irrigating three acres of land, and find it equal to any 10 foot wooden wheel on the market. It runs nearly without wind, and works the

pump smoothly and well. HANSON & TEMPLIN. Archer, Neb.

These are but a few of many testimonials in our hands, we could publish more of them but printers ink is not given away in

We advertise the Aermotor now simply because it is a new thing here and we want to bring it before the public, it wont be longbefore the mills will advertise themselves. We will be glad to furnish prices and more detailed particulars to parties who write us or, if persons interested in Aermotors will call at our store we will show them

working models erected on tilling towers. We have the sole agency for these Islands and the Aermotor can be obtained only through us.

THIS PAPER IS KEPT ON FILE The Hawaiian Hardware Company,

FORT STREET, OPPOSITE SPRECKELS BANK, HONOLULU.
